

1923 tõlgitud R. Tagore „Aednik“  
ja „Gitandžali“ jäid oma trükiaega  
ootama 1936. aastani, sest 13-  
aastast tõlkijat peeti liiga nooreks.

Dear Sir,

I must thank you for your kindness in  
having sent me a copy of your Estonian translation  
of "The Gitanjali" and "The Gardener". You by  
your translation have rendered me a great tribute  
as well as help in popularising my works in that  
far off land of yours and I again express my  
genuine sentiments of gratitude.

Yours sincerely,

Rabindranath Tagore
